

- ❖ Patent protected groundbreaking technology for the creation of Singlet Oxygen
- ❖ 99.9 Percent Hepa Filtration Cleans Pollutants in the Air
- ❖ GERMICIDAL UV LAMP

The **Z Medic Air** device uses our patent protected groundbreaking technology for relieving and dealing with various diseases and syndromes: COPD, pneumonia, bronchitis, asthma, anemia and other conditions leading to fatigue. All through triple action: cleansing, disinfecting and enriching the air with singlet oxygen. Breathing singlet oxygen enriched air boosts the body's natural defense and repair mechanisms, leading in part to improving cognitive abilities.

Groundbreaking Technology - Our patent protected technology enables efficient enrichment of singlet oxygen in a healthy way

Multifunction Purifier - Our technology is combined with a purifier to create a much healthier and cleaner air for you

Silent - Highly efficient and quiet motor

Removes Dust,
Freshens Air

Eliminates Formaldehyde,
Benzene, Ammonia and
Other TVOCs

99.97 Percent Hepa
Filtration Cleans
Pollutants In the Air

Removes Odors,
Pollen, Smoke,
Bacteria & Mold

6 Stages of High
Efficiency Filter
